## SUMMARY

I am a web developer and designer, graduated in Argentina, with 4+ years of experience in developing and designing a wide range of websites using Wordpress, PHP, HTML, jQuery, JavaScript, MySQL, Photoshop, Illustrator, etc.

I am a results-oriented professional, my goal is to create web developments and designs with the user in mind, creating sites with a useable and intuitive user interface in order to maximize his experience.

I believe that a keen sense of organization and attention to detail are essential qualities to arrive good results.

I have worked on a couple of software companies and also as a freelancer. I helped to develop & design several successful web projects, that are already live online.

I stay always reachable to my clients, in order to give them daily or milestone updates; to make sure that they are satisfied and happy with the quality of my work.

**What can you expect from me?**

- Honesty
- Hard Work
- Commitment
- Optimism
- Perfectionism
- Passion

---

## EDUCATION

**Universidad de Palermo**

**Audiovisual designer**

2007-2012

Studied for 5 years and obtained a Bachelor's degree in Audiovisual Design oriented to Web Development. I've enrolled on a studies program that covered developing websites, visual effects, animation and multimedia design.

---
