## Summary

Using traditional and digital techniques as a digital artist and a graphic designer demonstrates my critical thinking and creativity to create ideas and solutions.

## Experience

|                                                                                                                                                                                                                               |                    |             |
