Driven individual with enthusiasm to learn and succeed in a technical role. Seek to grow with a company and be an asset in its success. A conscious fast learner with great communication skills and adaptability. Work cohesively with a team and individually. Passionate about learning with current focus on Javascript stack and Rails.

RELEVANT EXPERIENCE

Bookspan LLC

Freelance Front end Developer | New York, NY | May-current

E-commerce platform running 12 different book club websites. Worked on HTML emails using Sailthru, various features in SASS and CSS, javascript components in a platform switch from Magento to Node.js, and responsiveness of websites. Collaborated with a team using Git/Github and Agile Jira software.

LizpDev

Freelance Front end Developer | New York, NY | 2014-recent

Build the front end of websites for various clients. Consisting of wordpress, bootstrap, JQuery, SASS, and some PHP.

Squeaky Wheel Media

Intern | New York, NY | Feb - March

Front end developer intern. Assisted front end back end developers with QA of sites, bug fixes, building front end of websites, and testing for performance. Utilized Wordpress skills to assist with the front end of the Jackie Robinson Foundation website re-design.

Wendy Ford Designs

Intern | New York, NY | 2014

Assisted in editing photographs of vintage swatches, which were then sold to designers. Gained experience using various tools in Photoshop.

Ace Hotel

Event Bartender | New York, NY | 2009-2015

Set up and serve private events in Liberty Hall of the Ace Hotel. Food catered by Michelin starred The Breslin. Events ranged from sit down dinners to cocktail parties. Multi-tasked and kept a calm demeanor in fast paced environment.

EDUCATION

The New York Academy of Code and Design

Student | New York, NY | current

Front end 101 8 week course. Covered and practiced: responsive design, Bootstrap, CSS3 transitions and animations, SASS and Bourbon.io, Javascript/Jquery, using JQuery/AJAX to work with APIs. Built a simple application using the breweryDB API for beer suggestions based on user input. Working on making this a full feature Rails application.

The {C}oded App Development

Student | New York, NY | 2014

Weekend intensive focused on the development process of building an app. Worked with a team to build an app for event bookings using a Rails AirBnB clone. Gained experience using Git/GitHub, the command line, Heroku for deployment. Worked on the entire process of web development, including planning, designing, developing, troubleshooting, debugging and implementing software code for website components.

I'm also an avid Meetup group attender, where I take part in workshops involving Angular.js, Rails, and iOS.
